VOL. XXV.

LOS ANGELES, SATURDAY MORNING SEPTEMBER 11, 1886.—SIX-PAGE EDITION.

NO. 162.

## NEWS OF THE WORLD.

A Haven for Prince Alexander.

## AGRICULTURAL REPORTS.

A Crooked Operator—Sedgwick's Investigation—A Disasterous Conflagration.

*Special to the Herald by the Associated Press.*

LONDON, September 10.—Prince Harry of Battersea, husband of Princess Beatrice and brother of Prince Alexander, late ruler of Bulgaria, has left Paris to call for Darmstadt. We understand he is to bring Prince Alexander to Bohemia.

ENGLAND OPPOSES RUSSIA'S POLICY.

ST. PETERSBURG, September 10.—More voices are raised that all the powers of the Berlin treaty England also would indicate to oppose Russia's Bulgarian policy. Russia must know whether England's intention is serious in order to prepare herself to take measures accordingly if Russia will not be brought to a standstill by England's veto.

THE PRINCE AT DARMSTADT.

Prince Alexander is arrived here. He was received by the Secretary of the English legation and Burgomaster and at once proceeded to Jungenheim, his father's residence.

THE CZAR OF RUSSIA.

LONDON, September 10.—The Czar is sojourning in Paris, and will not return to the Russian capital for three weeks.

WOULD HAVE KILLED HIM.

LONDON, September 10.—Capt. Kavanaugh, of the yacht on which Alexander was first conveyed from Paris, has published an account of the journey home. He says it would have killed Alexander if the latter had tried to escape.

REPUBLICAN JOINT CANCER.

SACRAMENTO, September 10.—A joint Republican cancer was held at noon, which was attended by fifty-six members of both houses. Senator McClure presided. The long debate on the subject of the present state of the Union did not last more than ten minutes, and a resolution to this effect was adopted by a vote of 45 to 6. It is believed that the motion to adjourn to-morrow at noon will be adopted in the Assembly to-morrow morning.

DEPARTMENT OF AGRICULTURE.

The Crop Prospects Throughout the Country.

WASHINGTON, September 10.—The September report of the Department of Agriculture shows a better yield of spring wheat than was expected a month ago.

The improvement is in the northern belt—Washington, Minnesota and Dakota. In Nebraska there has been a decline. In Iowa there is little change. The general average is 84, an increase of four points. The average yield of the crop also, as far as the results of threshing are reported, exceeds eleven bushels and may reach eleven and a half bushels per acre. Winter wheat in the Ohio valley gives promise of a better return than was expected at harvest time.

In the Middle and Eastern States the percentages of July are not materially different. In the South the crop was a disappointment, and rainfall injured the product in the stack. The returns indicate an average yield of about twelve and a half bushels per acre.

The improvement is in the north belt—Missouri, Kansas, Nebraska, Iowa, Illinois, Indiana, Michigan, Ohio, West Virginia, Kentucky, Tennessee, Mississippi, Louisiana, Texas, New Mexico, Arizona, California, Nevada, Utah, Colorado, Wyoming, Montana, Idaho, Washington, Oregon, Alaska, and Hawaii.

Otherwise percentages remain unchanged. A committee of one from each road was appointed to perfect the system of reporting to the Bureau in the pool on through business and awarding the Omaha two per cent. The Kansas City, St. Joe and Council Bluffs roads are now reporting to the Bureau. The great improvements in the Council Bluff local road are being made by the railroad companies. The Bureau percentages remain unchanged. A committee of one from each road was appointed to perfect the system of reporting to the Bureau in the pool on through business and awarding the Omaha two per cent.

The first road set up in the West is the Northern Pacific, which was organized in 1864.

The crop prospect, with the exception of the Northern Pacific, is favorable.

THE CROP PROSPECTS.

WICHITA, September 10.—The Western Railway Managers, after a three days session, succeeded in day in reaching a basis of compromise and reorganizing the Western Freight Association.

The two prominent obstacles have been the refusal of the Chicago and Northwestern to pool its range cattle business, originating in Western Nebraska and Wyoming, and the demand of the Missouri Pacific that by reason of its location in the middle of the country it was entitled to a portion of the traffic.

The returns indicate an average yield of about twelve and a half bushels per acre.

The improvement is in the north belt—Missouri, Kansas, Nebraska, Iowa, Illinois, Indiana, Michigan, Ohio, West Virginia, Kentucky, Tennessee, Mississippi, Louisiana, Texas, New Mexico, Arizona, California, Nevada, Utah, Colorado, Wyoming, Montana, Idaho, Washington, Oregon, Alaska, and Hawaii.

Otherwise percentages remain unchanged. A committee of one from each road was appointed to perfect the system of reporting to the Bureau in the pool on through business and awarding the Omaha two per cent.

The first road set up in the West is the Northern Pacific, which was organized in 1864.

The crop prospect, with the exception of the Northern Pacific, is favorable.

THE CROP PROSPECTS.

WICHITA, September 10.—In the case of Goodhue vs. the Southern Pacific Railway Company, Acting Secretary Muldrow, of the Interior Department, has rendered a decision confirming that recently rendered by Commissioner Sparks, which allows Goodhue to make his timber culture entry in the Los Angeles County, thus rejecting a claim of the railroads concerning the land on the ground that it was of odd sections granted along the line of road.

Some decisions in like cases rendered in the District Courts of the Southern Pacific vs. the State of California, Fifteen decisions in favor of the Southern Pacific were rendered in cases involving the same question upon which the suit of Goodhue vs. the Southern Pacific road was decided a few weeks ago.

THE TURT.

NEW YORK, September 10.—In the first race at the Brooklyn Jockey Club course, for all ages, five furlongs—Principe won, Muri second, Merit third; time, 1:02.

One and one-eighth miles—Tornado won, Ada D. second, Cathcart third; time, 1:58.

For two-year-olds, three-quarters of a mile—Italia won, Benson second, Maggie Mitchell third; time, 1:17.

One and one-eighth miles—Oفال won, Mary H. second, Saxon third; time, 1:58.

One mile—Swift won, three cheers given; Farina third; time, 1:43.

Seven-eighths of a mile—Honoria S. won, Tillie D. second, Error third; time, 1:30.

AT SACRAMENTO.

SACRAMENTO, Cal., September 10.—The first race in the introduction stake for all ages, five furlongs—Principe won, Muri second, Merit third; time, 1:02.

Second race, California breeders' stakes—Muri and a quarter, two starters, Woodlark and Edelweiss—Won by latter; time, 2:11.

Third race, California stakes, milles and five-eighths, two starters, Woodlark and Billy Ayres—Won by Doubt; time, 2:06.

Fourth race, purse \$250, mile heats two out of three—Won by John A. who took the last two heats; John A. first heat; time, 1:44.1-1:45.

MINGE STOCKS.

NEW YORK, September 10.—Wheat Quiet, Shipping, \$1.55@100 per cent.

Bailey—Quiet, Feed, \$2@100 per cent; Corn, \$4@15.

Corn—California, large yellow, \$1.25@10 per cent, small, \$1.35@1.37.

CARICO, September 10.—Wheat

Opener, 17@100 per cent; Corn, 17@100.

Barley—Opener, 17@100 per cent; Corn, 17@100.

CORN—Early, Corn, 20@100 per bushel; Corn, 20@100 per bushel; Corn, 20@100 per bushel; Corn, 20@100 per bushel.

Wheat—Opener, 17@100 per cent; Corn, 17@100 per cent; Corn, 17@100 per cent.

Wheat—Opener, 17@100 per cent; Corn, 17@100 per cent; Corn, 17@100 per cent.

Wheat—Opener, 17@100 per cent; Corn, 17@100 per cent; Corn, 17@100 per cent.

## DAILY HERALD

Single Copies of the Herald, 5 cents  
THIS PAPER is kept on sale at all advertising Agency, 64 and 65 Merchant's Exchange, San Francisco, Cal., where contracts for advertising can be made with it.

Herald Steam Printing House.  
The Herald Steam Printing House is not surpassed by any job printing office on the Pacific Coast, outside of San Francisco, in facilities or doing job work. Low prices good work and economy may be relied upon at this office.

**Special Notices.**

Merchants, offices of companies, societies, churches, etc., will only be inserted in the HERALD as paid advertisements. We reserve places of worship a gratuious directory which will appear every Sunday morning.

The Herald's office is connected with the telephone system of Los Angeles city and county. Orders for advertisements or job work may be sent through this medium to number 106.

The HERALD is the official paper of the city of Los Angeles. The city delinquent tax list and other important notices appear only in its columns.

Mr. N. H. Howe is the Santa Ana agent of the HERALD.

## THE DEMOCRATIC TICKET.

For Governor—WASHINGTON BARTLETT, of SAN FRANCISCO.

For Lieutenant-Governor—M. F. TAYLOR.

For Associate Justices of the Supreme Court:

Short Term—JACKSON TEMPLE, of SONOMA.

Long Term—JESSE A. SULLIVAN, of SAN FRANCISCO.

Long Term—BYRON WATERS, of SAN BERNARDINO.

For Treasurer—ADAM HEROLD, of SANTA CLARA.

For Secretary of State—W. C. HENDRICKS, of SAN FRANCISCO.

For Controller—JOHN F. DUNN, of SAN FRANCISCO.

For Attorney-General—A. JOHNSON, of SONOMA.

For Superintendent of Public Instruction—ANDREW J. MOULDER, of SAN FRANCISCO.

For Surveyor-General—E. O. MILLER, of TULARE.

For Clerk of Superior Court—J. D. SPENCER, of STANISLAUS.

For Railroad Commissioner:

Third District—WILLIAM F. FOOTE, of ALAMEDA.

For State Board of Education:

Fourth District—JOHN T. GAFFY, of LOS ANGELES.

For Comptroller:

Sixth District—JOSEPH D. LYNCH, of LOS ANGELES.

**Temporary Retirement.**

During the current canvass Mr. Joseph D. Lynch, the Democratic nominee for Congress, in the Sixth District, will surrender the editorial supervision of the HERALD.

The EXPRESS says the Herald is a "joker" like its other contemporary—dearly esteemed evidently. The HERALD disclaims the distinguished honor. The EXPRESS is happier in the vein of watering telegraph stock.

The EXPRESS is so much better pleased with its bogus dispatches from to come from Washington, that it prints the false thing twice, once yesterday and once the day before. This is not hopeful in the way of being either "fair minded" or "intelligent." It had been hoped the EXPRESS was both. We shall see.

It's "Fair minded and intelligent," if you care to that happy height of manliness. Mr. EXPRESS. Do not twist statements to twist votes. The voter is thinking these days and may conceive contempt of unfair and unintelligent ways like AB Sin's. Mr. Swift's strongest point is stamp oratory—it is Kearney's point.

The EXPRESS man thinks the Herald will "earn a great deal about politics as the campaign progresses." Thanks neighbor. We have so ourselves. We are not so conceived as to think we are past learning, nor so stupid as to be incapable. Sorry—awfully—not to be able to return the compliment, but it would be unparliamentary to say why.

We did not object to Mr. Swift's spending any one's money. It was the self-same way of spending it that was objected to. Besides the people as you say "want a man who won't spend the people's money." Many think that \$25,000 fee log rolled through the legislature was the people's money. Does the EXPRESS in a "fair minded and intelligent" way conceive the difference? The people do.

It has been said that the late Gen. Hancock's speech to the effect that the tariff was rather a local than a national issue did much to lose him the Presidency. Be that result of the utterance as it may, there is no doubt that Hancock's new will gain ground as time goes on. All that makes a national question is the fact that it requires national legislation. In this case, it is undoubtedly a local matter. That it will ever be relegated to any other than the national legislature is probably impossible. At the same time, the national law will have to be made with reference to local interests.

Had Gen. Hancock said the matter had ceased to be a purely party question, the expression would have been happier. Day by day the tariff question becomes less and less distinctly a party question. This is instanced in the demand of the California Democratic State Convention to have restored the duty on wool, which was removed some time ago by a Republican Congress, at the recommendation of a Republican commission appointed by a Republican President—Arthur.

The tariff proposition is purely a selfish one. The free trade doctrine was of English origin and was as thoroughly selfish as all the neat commercial propositions that have been conceived and brought forth by the fine financial brains, and trading habits of John Bull in his "right little, tight little isle."

In those early days of pure selfishness, he had all the manufacturing of the world. He had much merchandise to sell, and for the teeming millions of his factories he had much bread to buy. Britania was the original.

"Old woman that lived in a shoe—

The plan to let in broad free, and in return get her manufactures admitted free, had much to do with the success of the "world around and the seas across," was as thoroughly with every single to the interests of number one as any ever concocted.

In those early days in this country the reciprocity in the above terms was satisfactory. We had no manufactures, and had to buy all we used. It was every one's benefit to get this merchandise as cheap as possible. Whatever there was to sell from America brought a higher price by being admitted free of duty into our great market, England. Our exports were mostly the produce of the farm.

That was a very simple tariff business. Since then commerce has come

to be a very complicated system of affairs. Gladstone proved that the material growth of England from the opening of the present century to the end of its first model was greater in absolute bulk than in all the previous centuries between the invasion of the island by Caesar and the end of the eighteenth cycle. In the next quarter of a century it surpassed in material development the whole of the previous fifty years. Whatever in this line may be true of England of the United States. Her development since the close of the war has been enormous. We are now a nation of exporters in many lines of merchandise. The products of our fields are taking a much wider range than the corn, wheat and tobacco of the old colonial days. At the same time the nations around are competing with us in sending in many articles of home growth. There is here a very wide diversity of interests to take care of, and human nature like we all want our individual interests guarded.

**A Thorough Purgative**

medicine is the first necessity for cure. Then the cathartic effect must be maintained to prevent a recurrence of constipation, and at the same time the liver, kidneys and bowels must be stimulated and strengthened.

## AYER'S PILLS

Accomplish this restorative work better than any other medicine. They are searching and thorough, yet safe and gentle in action. They not only drive out the poisons, but do not irritate the body, and the stomach and bowels are in a condition of rest.

**The Official Abstinent Ointment** is put up in two ounce tin boxes, and is an absolute cure for oil sores, ulcers, burns, wounds, salt rheum, fever sores, chapped hands and mouth, etc. Price 25 cents per box. For sale by C. F. Heinzman.

#### GOLD AT LOS GATOS.

**Hat That Assays as High as Four Thousand Dollars Per Ton.**

The following startling letter was published by the San Jose Herald yesterday afternoon. The Herald writes for the reliability of its correspondent, both a reporter and a mining expert:

Los Gatos, August 27, 1886.—There has been a remarkable discovery made for several days, reported a reported discovery of gold-bearing quartz in the cactus and cove of Los Gatos. A young man of the name of Bowles has brought into town, at least \$4,000 worth of gold, which he sold to Kimball.

The rock is thickly studded with gold. Mr. Bowles has assayed some, which goes as high as \$4,000 per ton. Young Ward claims to have driven over \$1,000 hundred dollars from the sale of the gold.

No one has yet seen the ledge from which it has been taken, though it is said to be in the same locality, not far from Tres Gatos. It will be remembered that Owley is in the Insane Asylum at Stockton. Recently the excitement has assumed larger proportions from the statement of Kimball with the supposed mine. Among other rumors is that Mr. Kimball has been sent to Stockton to ascertain Owley's mental condition, and that he or some other authority in San Jose, has been appointed receiver of the farm with authority to lease it. Mr. Kimball has had some trouble in getting mining, and would be likely to locate the latter unless there was some merit in the project. Old miners have seen the idea of their being any. The quartz shown is not surface rock but has the appearance of being vein rock.

This quartz is almost identical in appearance with the Colorado gold quartz as it shows galena ore. In short, they are massed together for business, not whole thing is in sell. We would not advise more than a thousand men to come up here at one time to take up claim, as we have no room for 10,000. Gatos can furnish with water, grub, growth at Los Gatos on \$25 per day, great further notice.

#### Acknowledgment.

**ABRIETEINE'S OINTMENT** is produced in the Northern part of Boston, Mass., and containing w<sup>th</sup> it Vaseline and other therapeutic agents, we challenge the world to produce anything to equal ABRIETEINE'S OINTMENT for old ulcers, Bald Spots, Corns, Callus, Fever Sores, Chapped Hands, Cancer, Burns, Rupture, Worms, Bleeding Blister, Itching and Ulcerous Piles and all eruption of the skin. Price 25 cents. Sold by E. F. Heinzman.

**Good Results in Every Case.** D. A. Bradford, wholesale paper dealer, Chicago, Tenn., writes, that a severe cold that settled in his lungs had tried many remedies without benefit. Being induced to try Dr. King's New Remedy for Consumption, he was cured and recovered by the use of a few bottles. This is the experience of thousands and many have been saved by this wonderful discovery.

Trial bottles free at C. F. Heinzman's Drug Store.

#### An Electric Mountain.

Tulare Free Press.

A very peculiar property recently been discovered in the town of Santa Cruz. This rock is heavily charged with electricity, and when applied to a battery was found to produce strong electric currents.

A small hand held battery was generated sufficient electric force to operate the battery for three weeks, and appeared to be not the least exhaust of its powers.

This is very much the exception of ordinary situations, and exists in immense quantities, constituting the principal mass of the mountain.

It was accidentally discovered by a boy who was experimenting with mineral water on the mountain, and having occasion to use some of the rock placed it in contact with the battery.

He was immediately discovered by a party of miners who had come to the point of the rock, and the boy was ad-

vised to leave the place.

He did so, and the boy was saved by this wonderful discovery.

Good results in every case.
